Get to Know Us

At Flat Pack Container, we specialize in smart, scalable storage solutions designed to help businesses grow. Whether you're in self-storage, construction or retail, our goal is to make storage easy, profitable, and efficient.

Our containers are designed to be modular, portable, weather-resistant, and quick to assemble, all while maintaining a sleek, professional look. We're proud to serve customers across the U.S. and beyond, with a strong focus on wholesale distribution and long-term partnerships.

We're not just a container provider; we're your business ally.

www.flatpackcontainer.co

What We Offer

Wholesale Opportunities

We offer wholesale pricing for businesses that need durable storage solutions.

Perfect for:

- Self-storage facilities
- Construction projects
- Retail operations
- Equipment rental companies
- Municipal/government storage
- And more

Our flat pack containers are easy to transport, fast to assemble, and built to last.

Distribution Opportunities

Become an exclusive distributor in your region and build your own business around Flat Pack Containers.

Distributors earn profit margins between 60%–80%, with access to marketing support, protected regions and we also send qualified leads directly to our distributors every week, helping you grow faster with real customer inquiries from your area.

We're growing — and you can grow with us.

\$0 Down Financing for Storage Facilities Opportunities

We've partnered with trusted finance providers to help storage facility owners get started with no money down.

Our Lease Program gives you immediate access to inventory without the upfront cost.

How to become a distributor

● Call or email us

Speak with one of our sales representatives.
sales@flatpackcontainer.co or (659) 209 1208

● Build your first Order and process your payment

Work with our team to pick up your size(s), color(s), extras and accesories.

● Manufacturing

Once your order is placed, manufacturing time is 4 to 6 weeks. We'll keep you updated.

● Shipping door-to-door

Shipping takes approximately 4 to 6 weeks after manufacturing is complete.

● Delivery & Set Up

Receive the shipment, unload and set up for retail or display a unit at your facility.

● Benefits

We'll send marketing material, send you leads weekly and put your company information on our website.

Our **Accessories** explained

Smart Add-Ons to Enhance Your Storage Solution

Shelving Systems

Optimize vertical space with powder-coated steel shelving units — ideal for tools, inventory, or storage boxes.

Access Ramps

Make loading and unloading a breeze with the diamond plate steel ramps, designed for durability and easy container access.

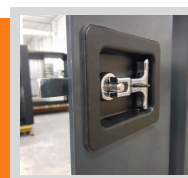

Double Doors

Double doors offer improved accessibility, making it effortless to load and unload items.

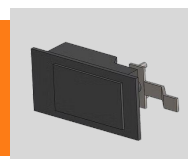

T-Locks

Designed to be padlock-ready with a maximum shackle diameter of 9 mm, they come in both horizontal and vertical versions to suit different configurations. Their robust construction ensures durability and added protection against tampering, making them ideal for safeguarding valuable contents.

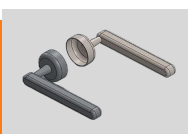

Elite Locking System

Is tailor-made for storage companies, equipped with a dedicated pad-lock section. The integrated locking mechanism serves as an invaluable addition, bolstering the security of every flat-pack container.

European Style handle

Incorporating European-style door handles into Flat Pack Containers offers a user-friendly and elegant solution for effortlessly opening and closing these containers.

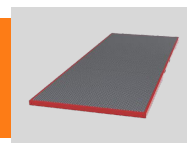

Anti-Condensation Coating

Our anti-condensation coating helps regulate humidity levels inside the container, preventing moisture-related issues and protecting your valuable goods.

Diamond Plate Flooring

Offers a combination of durability and safety. The rugged metal surface, featuring a distinctive diamond pattern, ensures slip resistance and can withstand heavy use in various settings.

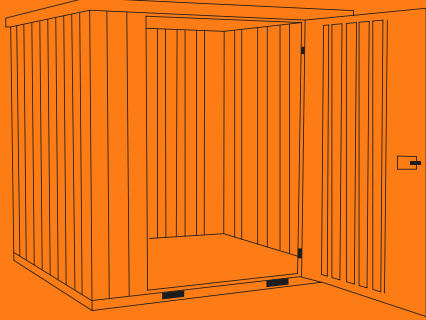

Wheel Receiver Kits & Dollies

If mobility is a concern, our wheel receiver kits can be a great addition to the containers, making them easier to move and position.
